Ball Check Valves

Represented exclusively
in North America by:

Distributed by:
Hydra-Numatic Sales Co.

A check valve with one moving part. Great for difficult abrasive and corrosive solids. No need for back flushing since it's self-cleaning.

2030 and 5087

Standard Construction

Ductile Iron with NBR Encapsulated Ball

Options:

- Flame Sprayed Internals with Many Materials for Extra Abrasive and Corrosive Resistance
- Polyurethane Balls
- Floating Ball for Air Release Applications
- 316SS - 2030 Only
