

# MIXER

## HOW TO FIX YOUR WET WELL CLOGGING PROBLEMS

**The perfect solution for any material or grease build up!  
Our trained professionals can help you fix these problems before  
they become bigger issues.**

### **GridBee® AP500 Air-Powered Mixers**

The AP500 helps dissolve the grease layer, minimizes pump inlet clogging from wipes and other materials, and reduces H<sub>2</sub>S odor & corrosion.
